Joumana Rahime is an IT professional and an advocate for promoting STEM education through inspiration, awareness, and access. Joumana is the founder of my1stCode, an organization that is dedicated to providing opportunities and exposure to STEM education for students k-12.

Prior to her role with my1stCode, Joumana held various positions in the IT field including software programmer, web developer, database administrator, network infrastructure and system support expert with a proven track record of leading effective teams.

Joumana serves on the Technology Advisory Board for Williamson County Schools where she has structured and helped implement the Creative Coding program for Williamson County middle schools. She later expanded the program by implementing teacher professional development training program to help creating more opportunities to more students to explore the world of computer science.

Joumana is the lead for the Teacher/Student committee at WiTT helping the organization to respond to requests from the community in bringing STEM education to girls through various participation in global, national, and special events.

Joumana was recognized for her effort and contribution to the STEM education drive by winning the NTC Community Leader of the Year award for 2016.
